CORE elements

match analysis

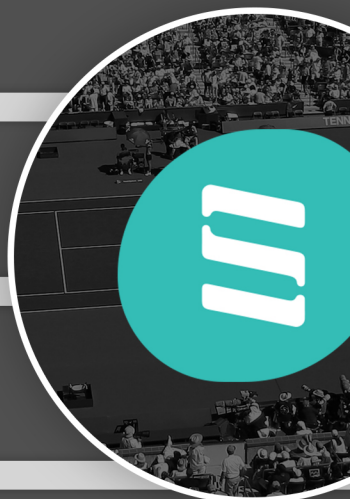

event support

opponent scouting

on-demand match analysis

How can our services be used:

Players – Use our charted footage and PDF reports to find areas in their game to improve and to identify their strengths to tailor their training.

Coaches – Use the match reports and video to analyse your players using objective data to allow an unbiased view of your players strengths and weaknesses. Our services can also be used for scouting to help you build a game plan for future opponents.

Parents of Juniors – Use our services to help you and your child to gain an appreciation of what is happening on court and to help understand the direction of the coaches.

PARTNER *examples*

tennis *academies*

We are proud to deliver analytics to our flagship partner Good to Great based in Stockholm, Sweden.

tech *companies*

Sports based tech companies like Dartfish are used globally by sports organisations to create, analysis and distribute video content.

sport *universities*

Sport specialist universities partner with us to strengthen player strategies and create a strong team identity for use on the practice and match courts.

MATCH analysis

analysis process

Players provide match
video footage

Match tagged across 30+ key
performance indicators

Content uploaded to private
area on Sportiii Analytics

Search, filter and view specific
moments in any match

Search, filter and view specific
moments in any match

Game Support

Through the information we provide, Sportiii Analytics works to support your competitiveness and athletic performance so you can make informed strategy and game style decisions.
